- **State Management:** Redux,
- **Testing:** Jest
- **Build Tools & CI/CD:** Webpack, npm
- **Version Control:** Git, GitHub, Bitbucket
- **Backend Integration:** RESTful APIs, Node.js, Express.js, Docker
- **Agile Methodologies:** Scrum, Jira, Confluence
- **Soft Skills:** Cross-functional Collaboration, Problem-solving, Strategic Thinking, Adaptability, Creativity

WORK EXPERIENCE

Frontend Developer
Davsoft Concept, NG - *present*

- Built frontend solutions with React.js, TypeScript, and Ky, focusing on performance and scalability.
- Collaborated with cross-functional agile teams to align development efforts with business objectives.
- Integrated RESTful APIs to connect client-side interfaces with server-side data sources.
- ***Key Project: -------***

Frontend Developer
Kopak Tech Solutions, NG - *June 2024 – Dec 2024 (contract)*

- Built and maintained frontend features using JavaScript, React.js, and GraphQL.
- Partnered with backend developers to ensure seamless data flow and API integration.
- ***Key Project:*** *------------*

Software Engineer (Frontend)
ITGEN Solutions, NG - *June 2023 – June 2024*

- Translated UX and business requirements into functional code solutions and web applications.
- Developed and maintained responsive and frontend code using JavaScript and React.js, tailwind, Redux and axios.
- Collaborated with cross-functional teams to ensure seamless product development and launch.

- Worked closely with back-end developers to connect client-side interfaces with server-side data sources via RESTful APIs.
- Architected and implemented scalable components using React.js and JavaScript, reducing development time by 40%.
- Collaborated with UX designers to build an intuitive, responsive design system using Tailwind CSS and Figma, enhancing user experience across mobile and desktop platforms.
- Collected, defined and translated user requirements into project designs and implementation plans.
- Participated in cross-functional agile teams, ensuring seamless collaboration and alignment with company objectives.

Projects: Gurugeeks Academy Portal, Deskit (Helpdesk Web App), Exceed (HRM/CRM Web App)

Frontend Developer

Tiidelab, NG - *July 2022 – Dec 2022*

- Learned industry best practices, version control, and collaboration in a team environment
- Collaborated with a team of developers to evaluate and improve existing designs under mentor supervision.
- Assisted in the development of reusable components and UI features using ReactJS.
- Participated in code reviews and gained experience with Agile development practices
- Actively contributed to requirements gathering, UI Design, Copywriting and implementation of designs.

Developer Support

P&S Solutions, NG - *April 2020 – June 2022*

- Coded using HTML, CSS and JavaScript to contribute to features for client websites.
- Contributed ideas during brainstorming sessions about new features or improvements needed in existing applications based on client feedback or personal observations from user interactions with the software.
- Worked cooperatively with client services, sales and design team in a deadline-driven environment.
- Followed SDLC best practices within Agile environment to produce rapid iterations for product features
- Tested web-based product functionality and delivered iterations to customers.
- Educated clients on proper use of products and systems.

CERTIFICATION/EDUCATION
_____

Frontend Developer Specialization Certificate
Meta, California, USA

UX Design Specialization Certificate
Google, California, USA

Higher National Diploma, Computer Science
Lagos State Polytechnic, Nigeria

B.Sc, Computer Science (in View)
Ahmadu Bello University, Nigeria
